FOREWORD BY MAYOR

Our Service Delivery and Budget Implementation Plan (SDBIP) commits Lekwa-Teemane Local Municipality to ensure that the organization actually delivers objectives which are aligned with the Integrated Development Plan (IDP), budget (both capital and operational) during the 2015/16 financial year.

SDBIP gives operational expression to the developmental local government and the IDP. The IDP is a strategic development plan which represents the driving force for making the Municipality more strategic, inclusive, responsive, and performance driven in character. The IDP therefore serves a contract between the Municipality and its communities in which it guides and informs all planning, budgeting, development, management and implementation in the medium-term decision-making. It is a plan for the entire municipal area and not just for specific areas.

This document will efficiently and effectively assist in access to information regarding the Operational plans and status of performance Information to the Community, Council, Management, Provincial and National government, other stakeholders and private and public sectors. There are internal reports, which are designed to facilitate:

- the current activities of the organisation;
- planning its future strategies and operations;
- improving objectivity in the decision-making process;
- optimising the use of resources;
- measuring and evaluating performance and
- Improving internal and external communication.

We are widening our support to the poor in terms of ensuring that they continue to have access to water, electricity, decent sanitation and other socio-economic imperatives that include housing in formalised areas, job opportunities, etc. If we do not invest now in better services and infrastructure that create jobs and support the economy as well as delivering vital infrastructure that local communities need, we will lose the opportunity to rebuild and/or develop Lekwa-Teemane. It is in this context that our IDP, budget and SDBIP would assist the Municipality to rebuild in a way that the livelihoods of our people will improve and therefore contribute meaningfully in our open and transparent planning and implementation systems.

Approved by the Mayor.

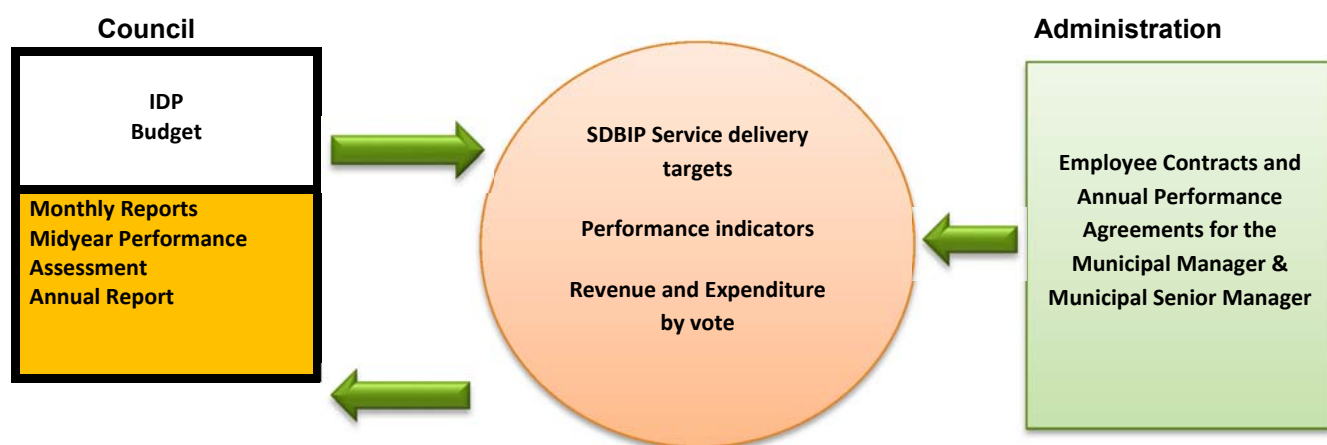

MAYOR
Cllr KGN PALAGANGWE

DATE

INTRODUCTION

The Service Delivery and Budget Implementation Plan (SDBIP) gives effect to the Integrated Development Plan (IDP) and budget of the municipality and this is only possible if the IDP and budget are fully aligned with each other, as required by the MFMA. The budget gives effect to the strategic priorities of the municipality and is not a management or implementation plan. The SDBIP

therefore serves as a “contract” between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis for measuring performance in service delivery against end of- year targets and implementing the budget. (Figure 1).

SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN FRAMEWORK

Whilst the budget sets yearly service delivery and budget targets (revenue and expenditure per vote), it is imperative that in-year mechanisms are able to measure performance and progress on a continuous basis. Hence, the end-of-year targets must be based on quarterly and monthly targets, and the municipal manager must ensure

The SDBIP is essentially the management and implementation tool which sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the

that the budget is built around quarterly and monthly information. Being a start-of-year planning and target tool, the SDBIP gives meaning to both in-year reporting in terms of the Municipal Finance Management Act, section 71 (monthly reporting), section 72 (mid-year report) and end-of-year annual reports.

municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services and the inputs and financial resources to be used. The SDBIP indicates the

responsibilities and outputs for each of the senior managers in the top management team, the inputs to be used, and the time deadlines for each output. The SDBIP will therefore determine the performance agreements of

The SDBIP is also a vital monitoring tool for the mayor and council to monitor in-year performance of the municipal manager and for the municipal manager to monitor the performance of all managers in the municipality within the financial year. This enables the mayor and municipal manager to be pro-active and take

Being a management and implementation tool (and not a policy proposal), the SDBIP is not required to be approved by the council – it is however tabled before council and made public for information and for purposes of monitoring. The SDBIP should be seen as a dynamic document that may be continually revised by the municipal manager and other top managers, as actual performance after each month or quarter is taken into account. However, the top-layer of the SDBIP and its

The municipal manager is responsible for the preparation of the SDBIP, which must be legally submitted to the mayor for approval once the budget has been approved by the council (around end-May or early-June). However, the municipal manager should start the process to prepare the SDBIP no later than the tabling of the budget (around 1 March or earlier) and preferably submit a draft SDBIP to the mayor by 1 May (for initial approval). Once the budget is approved by the Council, the municipal manager should merely revise the approved draft SDBIP,

It is the output and goals made public in the SDBIP that will be used to measure performance on a quarterly basis during the financial year. Note that such in-year monitoring is meant to be a light form of monitoring. The

the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible.

remedial steps in the event of poor performance. The SDBIP aims to ensure that managers are problem-solvers, who routinely look out for unanticipated problems and resolve them as soon as possible. The SDBIP also enables the council to monitor the performance of the municipality against quarterly targets on service delivery.

targets cannot be revised without notifying the council, and if there is to be changes in service delivery targets and performance indicators, this must be with the approval of the council, following approval of an adjustments budget (section 54(1)(c) of MFMA). This council approval is necessary to ensure that the mayor or municipal manager do not revise service delivery targets downwards in the event where there is poor performance.

and submit for final approval within 14 days of the approval of the budget. Draft performance agreements should also be submitted with the draft SDBIP by 1 May, and then submitted for approval with the revised SDBIP within 14 days after the approval of the budget. The mayor should therefore approve the final SDBIP and performance agreements simultaneously, and then make the SDBIP and performance agreement of the municipal manager public within 14 days, preferably before 1 July.

council should reserve its oversight role over performance at the end of the financial year, when the mayor tables the annual report of the municipality. The in-year monitoring is designed to pick up major problems

only, and aimed at ensuring that the mayor and municipal manager are taking corrective steps when any unanticipated problems arise. The SDBIP serves a critical role to focus both the administration and council on

outputs by providing clarity of service delivery expectations, expenditure and revenue requirements, service delivery targets and performance indicators.

COMPONENTS OF SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

The SDBIP can be defined as: "a detailed plan approved by the mayor of a municipality for implementing the municipality's delivery of services and the execution of its annual budget and which must include the following:

1. Monthly projections of revenue to be collected for each source

The SDBIP must include the above information, which is the basic information required for the municipal manager to ensure performance. The information required on revenue, for example, is necessary, as if the municipality is clearly not collecting as much revenue as anticipated in the first or second quarter (for example), it should be taking steps to ensure that it lowers its expenditure targets (through an adjustments budget) or improve its revenue collection performance. Similarly, if expenditure

Determining the service delivery targets is much harder and occurs with a lag of at least 2 to 3 months (as compared to financial information, which should be available within 10 days after the end of each month). It is even harder to determine the appropriate and objective

The SDBIP information on revenue will be monitored and reported monthly by the municipal manager in terms of section 71(1) (a) and (e). For example, if there is lower

2. Monthly projections of expenditure (operating and capital) and revenue for each vote

3. Quarterly projections of service delivery targets and performance indicators for each vote

4. Ward information for expenditure and service delivery

5. Detailed capital works plan broken down by ward over three years

is occurring more slowly than expected (e.g. through under spending), the municipality needs to improve its capacity to deliver services or ensure that it is making its payments sooner and on time. The information required on revenue and expenditure will allow the mayor to assess budget performance of the municipality in terms of section 54 of the MFMA, using the monthly and mid-year reports submitted by the municipal manager in terms of sections 71 and 72.

performance indicators and measures for service delivery (for water, electricity, recreational facilities etc), and to measure the quality of such delivery. This is an art that will require managers to be more creative and innovative.

than anticipated revenue and an overall cash shortage in a particular month the municipality may have to revise the spending downwards to ensure that it does not borrow

more than anticipated. More importantly, such information requires the municipality to take urgent remedial steps to ensure it improves on its revenue-

While these projections would be most useful as cash flow projections, it is also critical to understand the relationship between revenue billed and the amount actually collected in the context of tariff, credit control and indigent policies and any other relevant policies. Comprehensive, coherent revenue policies that take into account are:

- a) Regional levies
- b) Property rates
- c) Property rates - penalties imposed and collection charges
- d) Electricity revenue from tariff billings
- e) Water revenue from tariff billings
- f) Sanitation revenue from tariff billings
- g) Refuse removal from tariff billings
- h) Grants

Service delivery targets relate to the level and standard of service being provided to the community and include targets for the reductions in backlogs of basic services. The requirement for service delivery targets is consistent with national government policy requiring the public sector to be able to measure service delivery outputs and outcomes in addition to inputs (expenditure). For example, a service delivery target could be the number of households receiving the defined minimum basic level of clean water. The public information should deal with service delivery, rather than on how a municipality

collection capacity if the municipality wants to maintain its levels of service delivery and expenditure.

account appropriate service delivery levels, standards, ability to pay and collection efforts will ensure realistic revenue projections and ultimately balanced budgets.

Sources of revenue for the purposes of the SDBIP defined by National Treasury as national norms and standards

- i) Interest & investment income
- j) Rent of facilities and equipment
- k) Interest earned outstanding debtors
- l) Traffic fines
- m) Fines for late payment
- n) Licenses and permits
- o) Income from agency services
- p) Other

organizes itself to do so. Such information must relate to output information on service delivery, for example, expansion and regularity of refuse removal services or provision of water will be the primary service delivery objective. Internal or management performance indicators, suitable to manage lower-layer managers, should generally not be made public. The development of appropriate service delivery and performance targets and indicators may differ from municipality to municipality depending on their priorities and challenges and will require further development.

Reporting on SDBIP

This section covers reporting on the SDBIP as a way of linking the SDBIP with the oversight and monitoring operations of the Municipal administration. Various reporting requirements are outlined in the MFMA. Both the Mayor and the Accounting Officer have clear roles to play in preparing and presenting these reports. The

SDBIP provides an excellent basis for generating the reports for which MFMA requires. The reports then allow the Lekwa-Teemane Local Council (Ward and PR Councillors) to monitor the implementation of service delivery programs and initiatives across the Municipality.

Monthly Reporting

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. This reporting must be

- I. Actual revenue, per source;
- II. Actual borrowings;
- III. Actual expenditure, per vote;
- IV. Actual capital expenditure, per vote;
- V. The amount of any allocations received

conducted by the accounting officer of a municipality no later than 10 working days, after the end of each month. Reporting must include the following:

If necessary, explanation of the following must be included in the monthly reports: (a) any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote (b) any material variances from the

service delivery and budget implementation plan and; (c) any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain within the municipalities approved budget.

Quarterly Reporting

Section 52 (d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality

within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the mayor's quarterly report.

Mid-year Reporting

Section 72 (1) (a) of the MFMA outlines the requirements for mid-year reporting. The accounting officer is required by the 25th January of each year to assess the performance of the municipality during the first half of the year taking into account:

- (i) The monthly statements referred to in section 71 of the first half of the year
- (ii) the municipalities service delivery performance during the first half of the financial year, and the service delivery

Based on the outcomes of the mid-year budget and performance assessment report, an adjustments budget may be tabled if actual revenue or expenditure amounts

targets and performance indicators set in the service delivery and budget implementation plan;

- (iii) The past year's annual report, and progress on resolving problems identified in the annual report; and
- (iv) The performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities.

are materially different from the projections contained in the budget or the SDBIP.

The SDBIP is a living document and may be modified based on the mid-year performance review. Thus the SDBIP remains a kind of contract that holds the Lekwa-Teemane Local Municipality accountable to the community

QUARTERLY PROJECTIONS OF SERVICE DELIVERY TARGETS AND PERFORMANCE INDICATORS FOR EACH VOTE

THEMATIC AREAS: BASIC SERVICES and INFRASTRUCTURE DEVELOPMENT

Analysis:

In terms of sanitation the municipality still has 300 buckets in Boitumelong ext.1, 2 and 4. The Christiana Town and a section of Bloemhof are still using the septic tank systems. The total number is 800. The District municipality is currently busy with the rehabilitation of the Boitumelong and Utlwanang ext. 5. These projects were funded and managed by the District Municipality.

Refuse are collected in the entire Lekwa-Teemane. New establishments within the municipal area still need refuse removal services. The municipality experience a problem regarding illegal dumping at street corners and vacant stands. Skip bins are needed to address the problem of illegal dumping within the municipal area. The municipal machinery is very old and needs to be replaced.

At present the supply of water to both Bloemhof and Christiana is under severe pressure. Problems start at the abstraction points, then move to the purification plants and then on to

the reservoirs, This is the result of new extensions being supplied with water and waterborne sanitation and not taking into account the capacity to supply sufficient water.

The sanitation service is currently also stretched to the limits as blockages regularly occur due to foreign objects being dumped into the system . Especially in Boitumelong the diameter of sewerage pipelines is not sufficient to deal with the large volumes.

In Christiana, Bloemhof and Geluksoord the electricity networks are old and in a dilapidated condition and needs urgent attention.

The tar, gravel and paved streets in Lekwa-Teemane are relatively old and designed many years ago and cannot cope with the increased volume and weight of the traffic that uses these roads on a daily basis and needs urgent attention.

THEMATIC AREA	Basic Services and Infrastructure Development
NATIONAL GOVERNMENT STRATEGIC OBJECTIVES (2009-2014)	<ul style="list-style-type: none"> • Massive programme to build social and economic infrastructure • Sustainable Resource Management and use
10 POINT PLAN	Improve the quantity and quality of basic services for all people in terms of water, sanitation, electricity, waste management, roads and disaster management.(Infrastructure Services)

NATIONAL PRIORITY OUTCOMES (2011/16)	Outcome 6: An efficient, competitive and responsive economic infrastructure network	Role of Local Government <ul style="list-style-type: none"> • Ring-fence water, electricity and sanitation functions so as to facilitate cost-reflecting pricing of these services • Ensure urban spatial plans provide for commuter rail corridors, as well as other modes of public transport • Maintain and expand water purification works and waste water treatment works in line with growing demand • Cities to prepare to receive the devolved public transport function • Improve maintenance of municipal road networks • Develop and implement water management plans to reduce water losses • Ensure effective maintenance and rehabilitation of infrastructure • Run water and electricity saving awareness campaigns • Ensure proper management of municipal commonage and urban open spaces • Ensure development does not take place on wetlands
	Outcome 10: Environmental assets and natural resources that are well protected and continually enhanced	
DISTRICT OBJECTIVES (2012-2017)	Provide and maintain the full range of social and economic infrastructure services to the needy households (that is 152 500 people) within the next five years (2012-2017)	
STRATEGIES		
A partnership should be established between the relevant spheres of government, private sector and the respective communities to co-plan and co-fund massive social and economic infrastructure services in the District.		
Objectives(2012-2017)	Strategy(s)	
Provide and maintain the full range of social and economic infrastructure services to the needy within the next five years (2012-2017)	WATER: <ul style="list-style-type: none"> • Facilitate water supply to all households currently not having access to water. • Facilitate the upgrading of Raw water abstraction in Bloemhof • Facilitate the upgrading of Water Purification works in Bloemhof • Facilitate the rehabilitation of Raw Water abstraction and irrigation Channels in Christiana • Ensure maintenance of raw water channels. • Manage and monitor of water quality. SANITATION: <ul style="list-style-type: none"> • Facilitate the upgrading of waterborne sewer connections in Christiana. • Facilitate the upgrading of sewer Pump Station and pumping mains in Bloemhof. Facilitate and ensure access to sanitation for all households not having access to sanitation in LTLM (Christiana and Bloemhof) WASTE MANAGEMENT:	

	<ul style="list-style-type: none"> Facilitate and ensure establishment of land Fill Sites in LTLM (Christiana and Bloemhof) <p>ELECTRICITY:</p> <ul style="list-style-type: none"> Facilitate and ensure upgrading of the electrical infrastructure in Christiana Sustain supply of electricity to Bloemhof. Facilitate and ensure provision of electricity supply to all households without electricity Maintain and ensure maintenance of public lighting (1468) Provision of high mast lights in new extensions. Solicit funding for the upgrading of electricity networks. <p>ROADS AND STORM WATER:</p> <ul style="list-style-type: none"> Solicit funding for the upgrading of internal roads. Develop maintenance plans and ensure maintenance of internal roads on a regular basis. <p>VEHICLE, PLANT AND EQUIPMENT</p> <ul style="list-style-type: none"> Solicit funding for purchase of vehicle, plant and equipment Develop Operational and maintenance plans of vehicles and equipment
Provide and maintain the full range of social and economic infrastructure services to the needy households (that is 152 500 people) within the next five years (2012-2017)	

THEMATIC AREA: SPATIAL RATIONALE AND ENVIRONMENTAL MATTERS

There are disparities that exist with regard to Spatial Planning and Environmental issues within the Lekwa-Teemane Local Municipality. The historically distorted spatial patterns have not been addressed as evidence of the imbalances of the past still persists, despite interventions by the Municipality.

The Dr. Ruth S. Mompati District Municipality, developed a Spatial Development Framework in 2007 for the Lekwa-Teemane Local Municipality, which has not been reviewed therefore they are not in line with current developmental legislation and policies, hence deemed outdated.

The Lekwa-Teemane Local Municipality has reviewed their Spatial Development Framework in 2011. The review and/or development of SDFs is not only for

alignment with provincial and national policy, but it also need to be informed by our 3rd generation IDPs which come into effect at the end of the 2011/2012 financial year. The newly developed SDF for Lekwa-Teemane fully addresses the latter, as it has been developed in accordance to current policies and guide lines. All of the above will contribute in achieving the core objectives and strategies of Space, Economy, Governance and Communication as endorsed in the IDP. The Lekwa-Teemane SDF are attach as an annexure.

Municipal action: the municipality managed to appoint a Town planner intern. Lekwa-Teemane Local Municipality intends fill this financial year is the Town Planner position which was identified during MTAS in 2009.

LAND USE MANAGEMENT

The Land Use Management Bill must be processed and enacted in order for an effective Land Use Management System to be in place. The Lekwa-Teemane Local Municipality have a Town Planning Scheme which is outdated and does address certain issues, i.e., rural land use management, and hence are deemed ineffective.

The requirements set out in the bill amongst others include the replacement of Town Planning Schemes by Land Use Management Schemes, which should address boarder to boarder development within municipalities, thereby attending to rural land use management.

Planning requirements of the erstwhile provinces and planning laws of the TBVC States are still being used in most parts of the country as they are the only legal grounds for spatial planning in such areas; provinces such as Kwa-Zulu Natal and the Northern Cape have developed their own planning laws. The Provincial Government, together with National Government need to speedily enact the Land Use Management Bill so as to facilitate development from a common ground. The North West Land Use Management Bill will also help create a harmonious and coordinated environment once enacted.

THEMATIC AREA	Spatial Rationale and Environmental Matters	
NATIONAL GOVERNMENT STRATEGIC OBJECTIVES (2009-2014)	<ul style="list-style-type: none"> • Sustainable Resource Management and use • Build a cohesive and sustainable communities 	
10 POINT PLAN	Improve the quantity and quality of basic services for all people in terms of water, sanitation, electricity, waste management, roads and disaster management. (Spatial & Environmental Services)	
NATIONAL PRIORITY OUTCOMES (2011/16)	<u>Outcome 8:</u> Sustainable human settlements and improved quality of household life	<ul style="list-style-type: none"> • Cities must prepare to be accredited for the housing function • Develop spatial plans to ensure new housing developments are in line with national policy on integrated human settlements • Participate in the identification of suitable land for social housing • Ensure capital budgets are appropriately prioritized to maintain existing services and extend services
	<u>Outcome 10:</u>	<ul style="list-style-type: none"> • Facilitate the development and implementation of water management plans to reduce water losses • Ensure effective maintenance and rehabilitation of infrastructure • Facilitate the run water and electricity saving awareness campaigns • Ensure proper management of municipal commonage and urban open spaces • Ensure development does not take place on wetlands

	Environmental assets and natural resources that are well protected and continually enhanced	
DISTRICT OBJECTIVES (2011-2016)	<ul style="list-style-type: none"> • Provide and maintain the full range of social and economic infrastructure services to the needy households (that is 152 500 people) within the next five years (2011-2016) • Ensure that the housing needs of the most disadvantaged residents are adequately addressed in the District (more than 30 000 housing opportunities by 2016). 	
STRATEGIES		
<p>Verify the housing need in the respective Municipal Areas with the respective communities and relevant role-players Devise and implement a Capacity-Building Programme, focusing on building the capacity of staff to manage housing projects Increase the housing/ownership options and choice (owner-built, rental housing, higher density urban, communal) Focus on the development and implementation of a Rural Housing Development Plan Make the community aware of the availability of housing subsidies Establish Public-Private Partnerships (PPPs) Ensure that housing needs are reflected in and coordinated through spatial planning</p>

THEMATIC AREA: MUNICIPAL TRANSFORMATION and INSTITUTIONAL DEVELOPMENT

Analysis

Status Quo:

- There is an adopted organizational Structure with staff complement;
- The municipality has Employment Equity Plan (EEP) and Workplace Skills Plan (WSP);
- There is an established Occupational Health and Safety Committee;
- Council and its Sub-committees are stable and meeting regularly;

Labour Matters:

- There is an established structure, the local Labour Forum (LLF) which is constituted by both the Unions and the Management. This structure is a bargaining forum at the workplace

Status Quo:

- At present there is a sound relationship with the Unions. Labour matters are addressed in consultation with Unions. In the past year there have not been disputes which soured the relationship.

Challenges:

- Lack of a developed performance management system and the cascading of system down to individual employees within the municipality;
- There is no plan or system of ensuring cascading of performance management system to all employees in the municipality;
- Non-payment or late payment of skills development levis; Inappropriate use of Mandatory Grants (LGSETA);
- Training not done regularly and in terms of the WSP;
- The municipality does not have the OHS Plan and the committee is not meeting regularly.

THEMATIC AREA	Municipal Transformation, Institutional Development & Labour Matters

THEMATIC AREA: LOCAL ECONOMIC DEVELOPMENT

Analysis:

The municipality has developed a Draft LED strategy which states all the opportunities within the Municipality. The municipality has also strengthened the LED unit by appointing LED Manager.

Some of the challenges are:

- Lack of funding for identified projects
- Lack of support from sector departments and the District Municipality.
- Lack of monitoring of LED projects.

In trying to boost the LED unit the municipality has established the Lekwa-Teemane Local Development Agency. LTLDA is a municipal entity wholly owned by Lekwa-Teemane Local Municipality. LTLDA was incorporated in 2010 as a private company limited with Lekwa-Teemane Local Municipality as the sole shareholder. The Agency was established to champion economic development and growth within Lekwa-Teemane Local Municipality, whilst also creating jobs for the inhabitants of Lekwa-Teemane. The Agency is to achieve this pivotal mandate of economic development and growth and job creation through the following activities:

- ✓ To attract investments into Lekwa-Teemane municipal area.

- ✓ To market and promote the Lekwa-Teemane local economy among potential investors as a good investment destination.
- ✓ Economic Growth: Promote investment in jobs, new growth sectors and support for innovation
- ✓ Enterprise Development: Broadening ownership by mobilizing support for small enterprise development, Community cooperatives and corporations
- ✓ To foster and strengthen the linkages between local businesses, local government and civil society as well as to attract new external investment.
- ✓ To demonstrate the investment opportunities in Lekwa-Teemane among key audiences.
- ✓ To kick-start the implementation of strategic and high-value economic projects.
- ✓ To implement large scale economic development projects for the Municipality.

The municipality is trying to engage potential investors to revive all LED projects

THEMATIC AREA	Local Economic Development	
NATIONAL GOVERNMENT STRATEGIC OBJECTIVES (2009-2014)	Speeding up growth and transforming the economy to create decent work and sustainable livelihoods.	
10 POINT PLAN	Enhance the municipal contribution to job creation and sustainable livelihoods through Local Economic Developments (LED's) utilizing cooperatives in every ward.	
NATIONAL PRIORITY OUTCOMES (2011/16)	<p>Outcome 4: Decent employment through inclusive economic growth</p>	<p>Role of Local Government</p> <ul style="list-style-type: none"> • Create an enabling environment for investment by streamlining planning application processes • Ensure proper maintenance and rehabilitation of essential services infrastructure • Ensure proper implementation of the EPWP at municipal level • Design service delivery processes to be labour intensive • Improve procurement systems to eliminate corruption and ensure value for money

		<ul style="list-style-type: none"> Utilize community structures to provide services
	Outcome 5: A skilled and capable workforce to support an inclusive growth path	Role of Local Government <ul style="list-style-type: none"> Develop and extend intern and work experience programmes in municipalities Link municipal procurement to skills development initiatives
DISTRICT OBJECTIVES (2011-2016)	Ensure that by means of a District-Wide Local Economic Development Strategy, the unemployment rate is reduced by 25%, thus creating 1000 job opportunities per annum by 2016.	
STRATEGIES		
<ul style="list-style-type: none"> Industrial recruitment by offering tax and other incentives to attract new firms that will create new jobs Place-marketing to advertise attractions, such as available land and infrastructure, a pool of skilled workers, available amenities and entertainment SMME promotion and support by providing business infrastructure, finance, technical support through business advice centres, providing government contracts, and the like Community economic development through skills training, employment brokering (connecting job-seekers with available jobs), identifying niches in the local economy for SMMEs by means of a data bank, identifying enterprises that can be established under community control Export promotion: identifying sectors with comparative and competitive advantage, establishing partnerships with exporting firms, promoting local products by attending trade fairs, initiating relationships with foreign cities Business retention and expansion by providing adequate infrastructure and services, streamlining of internal municipal functions (i.e. rezoning, building plan approvals), communicating with business chambers

THEMATIC AREA: FINANCIAL MANAGEMENT AND ADMINISTRATIVE CAPACITY

Analysis:

Currently the municipality is undergoing a serious cash flow problem which creates problems of wasteful and irregular expenditures mainly on interests for late payment of creditors such as Eskom, Auditor General, and Department of Water Affairs just to list the major. The DDLG&T has assisted by appointing a service provider who will capacitate and collectively with the Municipality develop a revenue enhancement

plan. Specific focus will be on debt collection, tariff restructuring and cash flow management. Staff shortage and skilling is a problem as well but it could only be addressed after the above project is completed. The municipality has not yet appointed CFO, but has an official acting in the vacant position until the position is filled.

NATIONAL GOVERNMENT STRATEGIC OBJECTIVES (2009-2014)	Building a developmental state including improvement of public services and strengthening democratic institutions	
10 POINT PLAN	<ul style="list-style-type: none"> • Restore the institutional integrity of municipality • Develop and strengthen a politically and administratively stable system of municipalities • Uprooting of corruption, nepotism, maladministration in our system of local government. • Build and strengthen the administrative, institutional and financial capabilities of municipality, and all municipalities should have clean audits by 2014. 	
NATIONAL PRIORITY OUTCOMES (2011/16)	Outcome 12: An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship	<ul style="list-style-type: none"> • Comply with legal financial reporting requirements • Review municipal expenditures to eliminate wastage
DISTRICT OBJECTIVES: (2011-2016)		
LEKWA-TEEMANE OBJECTIVES: Build and strengthen the financial management of the municipality to enhance service delivery and achieve clean audit by 2014		
STRATEGIES		
EFFICIENT AND EFFECTIVE FINANCIAL MANAGEMENT	SUPPLY CHAIN MANAGEMENT STRATEGIES	EXPENDITURE AND BUDGET MANAGEMENT STRATEGIES
<ul style="list-style-type: none"> ▪ Review and adoption of finance policies ▪ Financial reporting and in year reporting ▪ MTEF plan ▪ Budget management ▪ Ensure alignment of financial systems to GRAP/ Budget format ▪ Develop a five year integrated financial management plan. ▪ MFMA Implementation reform ▪ Development project based funding model. 	<ul style="list-style-type: none"> ▪ Review and update of the Supply Chain Management policy. ▪ Capacitate supply chain unit. ▪ Contract management (Compliance) ▪ Maintain updated service provider data base. 	<ul style="list-style-type: none"> ▪ Payments be effected within 30 days ▪ Submission of both expenditure and budgets reports timely. ▪ Timely creditors' reconciliations.

- Development of the asset registers as prescribed by GRAP.

**SERVICE DELIBERY BUDGET IMPLEMENTATION PLAN 2015/16
LEKWA-TEEMANE LOCAL MUNICIPALITY**

THEMATIC AREA: GOOD GOVERNANCE and PUBLIC PARTICIPATION

Analysis:

- The municipality has an adopted policy on Performance Management System and a senior manager has been appointed.
- Municipal Manager and Managers accounting directly to the Municipal Manager have been appointed in terms of the prescribed legislation and Performance Contracts have been signed;
- The municipality has an adopted SDBIP and MTAS;

Governance & Public Participation:

Status Quo:

1. Council has been meeting regularly

Challenges:

1. Though meeting regularly it has not been in terms of the adopted schedule of meetings.

Intergovernmental Relations:

Status Quo:

1. There is an existing IGR Forum constituted by sector departments.

Challenges:

1. The IGR does not meet regularly

THEMATIC AREA	Governance, Public Participation & Intergovernmental Relations	
NATIONAL GOVERNMENT STRATEGIC OBJECTIVES (2009-2014)	Building a developmental state including improvement of public services and strengthening democratic institutions	
10 POINT PLAN	<ul style="list-style-type: none"> • Municipalities that have reliable and credible Integrated Development Plans (IDP's) that are used as a guide for every development, programs and projects within that municipality. • Develop a coherent and cohesive system of governance and a more equitable intergovernmental fiscal system. • Build and strengthen the administrative, institutional and financial capabilities of municipality, and all municipalities should have clean audits by 2014. • The creation of a single window of co-ordination, support, monitoring and intervention as to deal with uncoordinated interaction by other spheres of government with municipalities including unfunded mandate. 	
NATIONAL PRIORITY OUTCOMES	<u>Outcome 9:</u>	<ul style="list-style-type: none"> • Adopt IDP planning processes appropriate to the capacity and sophistication of the municipality

<p>(2011/16)</p>	<p>Responsive, accountable, effective and efficient local government system</p>	<ul style="list-style-type: none"> • Implement the community work programme • Ensure ward committees are representative and fully involved in community consultation processes around the IDP, budget and other strategic service delivery issues • Continue to develop performance monitoring and management systems • Ensure councils behave in ways to restore community trust in local government
	<p><u>Outcome 12:</u></p> <p>An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship</p>	
<p>MUNICIPAL OBJECTIVES (2011-2016)</p>	<p>OBJECTIVES</p> <ol style="list-style-type: none"> 1. To ensure good governance; 2. To Project Lekwa-Teemane Local Municipality as a preferred area to invest, live and work; 3. To inform the community about services rendered and have an effective communication system ; 4. To provide the necessary strategic support for the implementation of the SDBIP and MTAS 5. To encourage and ensure public participation through ward committees, ensure participation of sector departments and other stakeholders on integrated planning. 	
<p>STRATEGIES</p> <ol style="list-style-type: none"> 1. Organise effective public participation and stakeholder meetings; 2. Enhance Corporate image; 3. Development and production of information brochures, articles, news-letters and stakeholder meetings in both electronic print media information; 4. Develop and implement SDBIP and MTAS;

Thematic Area: Cross Cutting Issues

Analysis

Key development themes, issues and proposals	Description of need/potential/project	Current Situation	Role-players and relations	Evaluation: Implications and imperative & proposed Interventions
Cluster: Social sector				
General	Key challenges include poverty eradication, SMME support, child labour and the de-stigmatisation of disability and HIV/AIDS.	Municipality have a responsibility to identify needs for social services in the IDP process, as well as to determine where to provide these services.		What needs to be done: <ul style="list-style-type: none"> - Integrate service facilities, i.e. pay-points with post offices with ancillary facilities such as ablutions, markets, etc. - Examine the quality of social facilities rather than the distribution and number of such facilities. - Introduce more formalised planning in informal areas. - Establish coordinating mechanisms (Gender Machinery and Children's Rights Advisory Councils) - Promote Gender Mainstreaming - Ensure updating of indigent registers and implementation thereof
Poverty	<p>The poverty gap in Lekwa-Teemane ranges between R29 and R30 million (LED strategy).</p> <p>The percentage of households earning less than R1 600/month in 2001 in the municipality was as follows 76%.</p>	Poverty is actively attended to through various basic services provision interventions.	Department of Health DoE NW Provincial Department of Health Department of Social Development NGOs DAC PCA	<ul style="list-style-type: none"> - Strengthen Poverty War-rooms - Intensify profiling of households and fastrack interventions - Promote food security - Promote access to land - SMME Support - Increase access to EPWP Programme -
HIV and AIDS	The number of pregnant women infected with HIV/AIDS in South Africa increased from 17% in 1997 to 22.8% in 1998 and dropped slightly to 22.4% in 1999. The number of pregnant women infected with HIV/AIDS in the NW Province increased from 18.2% in 1997 to 21.3% in 1998 and 23.4% in 1999. In 1999, the percentage of pregnant women, infected with HIV/AIDS in the NW Province (23.4%), was higher than the average for South Africa (22.4%). In view of the latter, it is estimated that approximately 408 724 pregnant women in the NW Province, and approximately 56 911 pregnant women in the DM area, were infected with HIV/AIDS by 1999.	Because of the lack of primary health care and the fact that only 14% of the population is covered by a medical scheme, people make use of self-medication, traditional healing and visits to alternative providers (SWS)	Department of Health DoE NW Provincial Department of Health District AIDS Council NGOs DAC PCA	What needs to be done? <ul style="list-style-type: none"> - Do "cemetery planning" to ensure that appropriate and enough land is available. - Target youth in school and all other youth groupings (SWS). - Strengthen and Support AIDS Councils - Develop integrated local HIV and AIDS Plan - Strengthening and Support of Community based structures -

	<p>Challenges:</p> <ul style="list-style-type: none"> - The rate of infection is increasing steadily. - Increased child-headed families and orphans. - Disease is a burden to under-resourced health sector and health care facilities (SWS). 			
Community Groups	<p>Challenges:</p> <ul style="list-style-type: none"> - The heavy reliance on grants. - Providing services to people with a disability. - A huge lack of day-care centres/facilities. 		<p>Department of Health DoE Department of Labour NW Provincial Government DM LMs NGO's, CBO's and FBO's</p>	<p>What needs to be done?</p> <ul style="list-style-type: none"> - Ensure that the poorest of the poor within the communities receive food parcels and starter packs provided by the Provincial Departments. - Strengthen community-based care services for older persons. - Build more frail care services for older persons. - Intensify Outreach Services - Promote Universal Access for people with disabilities - Facilitation of income generating projects - Promote access to basic education

Food gardens can be planted under neat the structures	SMME development, employment creation, skills transfer	SMME development, employment creation, access to services

Conclusion

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets, set in the budget and IDP. It determines the performance agreements for the municipal manager and all top managers, whose performance can then be monitored through section 71 monthly reports, and evaluated through the annual report process.

The biggest challenge that Lekwa-Teemane Local Municipality is facing year in year out is failure to meet all targets as planned as this is instigated by lack of adequate budget. In 2015/16 financial year the municipality intend to do things differently by achieving a lot with little resources, however this will remain work in progress for the municipality.
