# CHAPTER 1

## FOREWORD BY THE MAYOR

Our Service Delivery Budget Implementation Plan (SDBIP) is a strategic financial management and implementation tool to ensure that the budgetary decisions are aligned with our IDP.

It serves as a contract between Administration, Council and our community. This document further strives to critically evaluate the ability and capacity of the Municipality to ensure the realization of the 2010/2011 plan.

It is the intention of the Municipality to provide a broad, yet focused window of opportunity for Council to do introspection and take stock of the environment and find lasting solutions to identify challenges with an overall aim of capitalizing the realization of the plan.

As we enter the last financial year of our term of office believing that we can heighten our action and focus on targeted development and service delivery.

Our interest as Council is to see highlighted priorities that are achievable within this financial year and rally our people around those achievable priorities.

As Council we acknowledge the challenges that are still facing us, the growth in our indigent register shows the high level of unemployment. I take comfort in knowing that we are actively and aggressively confronting those challenges.

This is an opportunity as Council to say we can make a difference by planning correctly and implementing our plans.

Finally I would like to thank all my colleagues for the collectiveness that we presented in making sure that we come up with this tool.

I would also like to thank the Administration for all the support they have given us and our own communities who make sure that this is possible.

I would like to take this opportunity also to urge all stakeholders to encourage communities to assist the Municipality in service delivery by their active participation, especially in paying their services accounts timeously and in full.

“Challenges are what make life interesting. Overcoming them is what makes life meaningful.”

Mrs. R.M. Makodi

## **INTRODUCTION BY THE MUNICIPAL MANAGER**

2009/10 has been a very hectic year in terms of all the planning and efforts made by various players within the Municipality to improve service delivery to the entire community.

Despite the hectic schedule we managed as administration to comply with the legislative requirements in terms of the implementation of our adopted planning process, starting with the IDP to the SDBIP. For the first time this draft has been done in consultation with the staff members from our senior management to supervisory level. The purpose of this approach is to get and ensure buy-in from everybody with the intention of implementing the PMS at lower levels in the 2010/2011 financial year.

If you look at the profile of the Municipality, the challenge has increased because we have realized an increase of 2.7% of households to be serviced as compared to the previous financial year. The full package of basic service provision must be extended to the newly established Boitumelong Ext. 5 with 1200 residential stands, Utlwanang Ext. 5 with 750 households and we anticipate to have, in the second half of the year, 1100 households from Geluksoord Ext. 2 added as well.

Another challenge is the increase we experienced with regard to our registered indigents due to the data cleansing exercise we embarked on during the second quarter of the 2009/2010 financial year. We have 5870 registered indigents and the number might increase if you look at the monthly household income table which indicates that of 13329 households, 6587 households are earning between 0 and R 1100. The impact of the increase will have a negative effect on our cash flow and therefore prevent us from achieving some of the objectives and targets set in the 2010/2011 SDBIP.

The responsibility of ensuring that the above challenges are addressed rests on the shoulders of both the political structure of the Municipality, being the Council led by the Mayor and the administration led by the Municipal Manager. Upon their toil, they will be guided by the vision of the Municipality which is in itself the objects of local government.

The gist of the document is on the scorecard component of the SDBIP. This is a component which links the IDP, Budget for 2010/2011 and the Lekwa-Teemane Local Municipality Turnaround Strategy as adopted. We have consolidated and synchronized the planned activities of the three important planning tools to ensure that we achieve our goal of improving the provision of services and at the same time turn the Municipality around in terms of the financial position which is the mother of all our challenges.

I would lastly extend my gratitude to all the Councillors, who took a very important step by resolving to roll up their sleeves and join administration in ensuring that we face our challenges head on and they will take responsibility of ensuring that departments within their portfolio committees perform as required. This bold step should not be seen and it is not interference, but intervention and support to administration.

M.A. Makuapane

## CHAPTER 2

### Municipal Profile

Lekwa-Teemane Local Municipality was established on 6 December 2000 and is made up of the disestablished municipalities of Christiana and Bloemhof. This municipality which is also known as "NW 396 Local Municipality is neighbouring the following local municipalities: Maquassi Hills Local Municipality, Mamusa Local Municipality, Francis Bard Local Municipality and Magareng Local Municipality. Lekwa-Teemane is approximately 3 681km<sup>2</sup> in extent.

There is a population of ± 52967 of which the youth is 13594. The Bloemhof Unit is more populated with 58% of the total population from the total population. The population is distributed in the following manner:

<b>Population</b>	<b>Number</b>	<b>%</b>
Black	41085	77%
Coloured	4007	7%
White	6945	15%
Indians	90	0.21%
Other	340	0.79
<b>Total</b>	<b>52967</b>	

### **Population by gender**

<b>GENDER</b>	<b>NUMBER</b>	<b>%</b>
Female	29773	53%
Male	23194	47%

### Population by age group

Age	Number	%
0-1	2711
